

## TRUCK EXHAUST EXTRACTION

*Eliminate hazardous truck fumes with an exhaust extraction system*

### PRODUCT DESCRIPTION

Eurovac has a wide range of exhaust systems consisting of Hose Reels, Sliding Rails, and Hose Drops which are designed for the extraction of truck exhaust gases at the tailpipe or stack which are emitted inside buildings. They are designed for facilities such as truck service garages and truck storage garages as well as hard to reach areas for many other types of fumes and gases. A flexible hose mounted on the reel, rail or drop allows for extraction of gas-air mixture with max temperatures suitable for diesel fumes.

### KEY BENEFITS

- *Superior products* designed to run all day, every day with minimal maintenance required
- *Eliminate unsafe exhaust fumes from your breathing space:* With any one of the truck exhaust extraction options the fumes will be captured right at the source and extracted outside
- *Eliminate breakdowns:* High efficiency industrial grade fans and top quality equipment keep your exhaust system up and running, and always ready for use
- *Improve the look of your facility* with a state of the art truck exhaust system

### ADDITIONAL SERVICES

- *Professionally engineered layouts*
- *Complete line of quality truck exhaust accessories*
- *Turnkey installations*
