

HIGH TOWER AIR CLEANER

AIL-05F-NO200000

The Eurovac High Tower Air Cleaner is an ideal option for secondary source capture of particulate that may have escaped the primary source capture method such as vacuum MIG guns or fume arms.

- Powerful 5HP fan with aluminum impeller
- Excellent filtration with four (4) aluminum mesh pre-filters to capture sparks and steel chips followed by two (2) secondary cartridge filters
- Available with automatic pulse jet cleaning and optional HEPA filtration upgrade
- Mounted on heavy duty welded tubular steel frame with a powder coat finish and with a 4" poly rear wheels and 2" swivel (lockable) front wheels. Unit is also available in stainless steel.

Effective Capture of:

Dust

Fumes

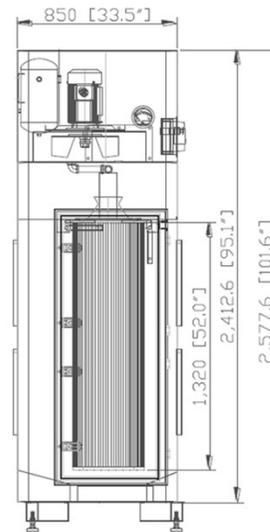

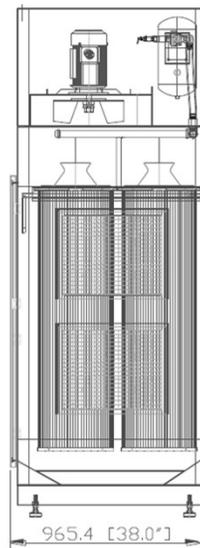

Airborne Pollutants

Technical Data:

Specifications	
Horse Power	5HP
Voltage	208,240,460, 575
Power	3 Phase 60 Hz*
Airflow (max.)	3135 CFM
Sound Level @ 5'	79 dB(A)
Filter Area	3600 ft ²
HEPA filter efficiency	99.97% @ 0.3 microns
Weight	1144 lbs.
Height	102"
Width	39"
Depth	36"

*single phase available upon request
